Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. NOTES TO THE ACCOUNTS AND SIGNIFICANT ACCOUNTING POLICIES:

1. Basis of preparation of financial statements:

The accompanying financial statements are prepared under the historical cost convention in accordance with the Indian Generally Accepted Accounting Principles ("GAAP") comprising the mandatory accounting standards issued by the Institute of Chartered Accountants of India and the provisions of the Companies Act 2013. These accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted by the company.

The Fundamental Accounting Assumptions are as follows:

- a. ***Going Concern:*** The enterprise is normally viewed as a going concern, that is, as continuing in operation for the foreseeable future. It is assumed that the enterprise has neither the intention nor the necessity of liquidation or of curtailing materially the scale of the operations.
- b. ***Consistency:*** It is assumed that accounting policies are consistent from one period to another.
- c. ***Accrual:*** Revenues and costs are accrued, that is, recognised as they are earned or incurred (and not as money is received or paid) and recorded in the financial statements of the periods to which they relate.

The preparation of the financial statements in conformity with GAAP requires the management of the company to make estimates and assumptions that affect the reported amounts of revenues and expenses of the year, reported balances of assets and liabilities and disclosures relating to the contingent assets and liabilities as on the date of the financial statements. Actual results could differ from these estimates. There is no single list of accounting policies which are applicable to all circumstances. The differing circumstances in which enterprises operate in a situation of diverse and complex economic activity make alternative accounting principles and methods of applying those principles acceptable. The choice of the appropriate accounting principles and the methods of applying those principles in the specific circumstances of each enterprise calls for considerable judgement by the management of the enterprise.

2. Revenue Recognition:

Income is recognized on accrual basis, except in case of any claims, which are unascertainable are recognized when it is received.

9. Use of Estimates

The preparations of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between actual results and estimates are recognised in the period in which results are known / materialized.

10. Provision for Current Tax and Deferred Tax

11. Provisions, Contingent Liabilities and Contingent Assets
